Introduced to the joys of bare-bottom discipline by lustful ladies, naval cadet Philip Demesne, posted to the Far East, painfully learns true submission from the voluptuous dominatrix Galena, aboard her private carriage on the Trans-Siberian Express. Escaping from her lash, he is kidnapped to serve in an English School of female domination, transplanted to the emptiness of Siberia to escape do-gooding restrictions on corporal punishment. His male arrogance utterly crushed, Philip gladly submits to total enslavement by women with unlimited flagellant discipline. The women of Maldona are an ancient order devoted to Sapphic love and strict discipline, and Supreme Mistress Jana rules her world with rod and tawse. A compelling scene-setter for a classic series of flagellant fiction, from a mistress of the genre. Becoming Ursula's slave was the most exciting thing that had ever happened to Emma. She is whisked away to the confines of an English country residence, where beautiful but cruel mistresses preside over a bevy of young and wayward girls. This corrective regime demands the ultimate sacrifice in return for the forbidden pleasures of absolute fulfilment. Ethnic American Literatures and Critical Race Narratology explores the relationship between narrative, race, and ethnicity in the United States. Situated at the intersection of post-classical narratology and context-oriented approaches in race, ethnic, and cultural studies, the contributions to this edited volume interrogate the complex and varied ways in which ethnic American authors use narrative form to engage readers in issues related to race and ethnicity, along with other important identity markers such as class, religion, gender, and sexuality. Importantly, the book also explores how paying attention to the formal features of ethnic American literatures changes our understanding of narrative theory and how narrative theories can help us to think about author functions and race. The international and diverse group of contributors includes top scholars in narrative theory and in race and ethnic studies, and the texts they analyze concern a wide variety of topics, from the representation of time and space to the narration of trauma and other deeply emotional memories to the importance of literary paratexts, genre structures, and author functions. This second edition examines all aspects of Roman history, and contains a new introduction, three new chapters and updated bibliographies. This fourth volume of Emma's story finds its very pretty heroine back in the thrall of the sadistic Ursula, who is now supplying well-trained young women as slaves and pleasure creatures to wealthy overseas clients. Having been trained by Sabhu - Ursula's Haitian assistant and slave-trainer - Emma is hired out to the cruel wife of an African dictator who uses her in the most degrading ways. Emma soon discovers that the woman has acquired a painting which has been stolen from Ursula. Ursula wants it back at any cost and if Emma fails in her mission to retrieve it, she may never see her beloved mistress again A review of Cuban history, politics, and society includes a listing of key events and people, directories of organizations, and an annotated bibliography. This carefully curated collection of essays opens the vibrant field of Brazilian slavery and abolition studies to English-language readers. Anya, a copper-haired innocent beauty is sold into slavery. Her husband, little more than a stranger to her, abandons her at the Castle. Here she is put into chains of gold and delivered to the Taskmistress for training. But not even the Taskmistress's possessive desire for her new charge can prevent news of Anya's beauty reaching the Prince. This is the first volume in the Chronicles of Lidir. "Originating in a conference organised in 2007 by the Centre for the Reception of Greece and Rome at Royal Holloway, University of London, and held at the British Library ... this accessible volume offers a pathbreaking study of the role played by the interpreters of ancient Greek and roman texts in the debates over the abolition of slavery. Focusing on Britain, North America, the Caribbean, and South Africa from the late 17th century, the essays examine the arguments of critics and defenders of slavery and legacy of slavery, in later periods." -- Book jacket. Critical Readings on Global Slavery offers students and researchers a rich collection of previously published works by some of the most preeminent scholars of slavery in various regions and time periods, from antiquity to the present day. Written by some of the best-known independent scholars, citizen journalists, cyber-activists, and bloggers living in Cuba today, this book presents a critical, complete, and unbiased overview of contemporary Cuba. • Pays special attention to the opportunities, limitations, and challenges presented by the leadership of Raul Castro and his reforms • Provides an accurate, insider's perspective into contemporary Cuba supplied by Cubans who currently live and work on the island, in stark contrast with most accounts that are filtered through the lens of an outside observer • Supplies readers with a critical, comprehensive review of Cuban history, economics, politics, culture, and society that places current developments in historical context • Includes a glossary, an appendix of up-to-date statistical information, dozens of sidebars on a variety of important and unusual topics, and an annotated bibliography Ruthless and beautiful, Hera leads the Black Garter with a merciless hand. Her elite group of prefects secretly patrols the Kilgrimol Finishing School for Young Ladies. They help her to administer cruel and degrading punishments whenever Hera deems it necessary. New recruits are subjected to humiliating initiations, but the treasured prize of acceptance makes it a sacrifice worth enduring. When a spate of scandals strikes the school, private investigator Jo Valentine is called in to find the source of these incidents. Finding herself drawn into a world of perverse pleasures and sexual intrigue, she soon realizes that the Kilgrimol Finishing School is no place for a lady. Covering the Atlantic slave trade from its origins to 1600, this work looks at the reasons for its development. Particular attention is devoted to the demographic situation in Latin America and to European attitudes to slavery. Slavery and the slavery business have cast a long shadow over British history. In 1833, abolition was heralded as evidence of Britain's claim to be the modern global power. Yet much is still unknown about the significance of the slavery business and emancipation in the formation of modern imperial Britain. This book engages with current work exploring the importance of slavery and slave-ownership in the re-making of the British imperial world after abolition in 1833. The contributors to this collection, drawn from Britain, the Caribbean and Mauritius, include some of the most distinguished writers in the field: Clare Anderson, Robin Blackburn, Heather Cateau, Mary Chamberlain, Chris Evans, Pat Hudson, Richard Huzzey, Zoë Laidlaw, Alison Light, Anita Rupprecht, Verene A. Shepherd, Andrea Stuart and Vijaya Teelock. The impact of slavery and slave-ownership is once again becoming a major area of historical and contemporary concern: this book makes a vital contribution to the subject. Since the beginning of commodity culture, products have been marketed with images reflecting racist concepts of otherness. Using the prominent examples of three companies - Uncle Ben's, Sarotti, and Banania - this book examines how racist trademark figures were established in the U.S., Germany, and France, and built on nation-specific processes of racial stereotyping. While it finds that the three figures mirror their national histories of slavery, Orientalism, and colonialism, the book reveals that their paths through popular culture also followed strikingly similar patterns. Conceived in an era of overt racism, each symbol was challenged by social movements over the course of the 20th century and became increasingly marginalized in promotional activities. In the early 2000s, however, all three figures were relaunched with supposedly new makeovers, hitting once again at the heart of commodity culture and illustrating the subtle prevalence of

racist stereotypes. (Series: Racism Analysis - Series A: Studies - Vol. 3) There is an ongoing debate as to whether African American Studies is a discipline, or multidisciplinary or interdisciplinary field. Some scholars assert that African American Studies use a well-defined common approach in examining history, politics, and the family in the same way as scholars in the disciplines of economics, sociology, and political science. Other scholars consider African American Studies multidisciplinary, a field somewhat comparable to the field of education in which scholars employ a variety of disciplinary lenses—be they anthropological, psychological, historical, etc., --to study the African world experience. In this model the boundaries between traditional disciplines are accepted, and researches in African American Studies simply conduct discipline based an analysis of particular topics. Finally, another group of scholars insists that African American Studies is interdisciplinary, an enterprise that generates distinctive analyses by combining perspectives from d Slavery is a recurring motif in the writings of Fred D'Aguiar, John Hearne and Caryl Phillips. They narrate the fates of silenced victims who share the traumatic experience of racial violence even if otherwise separated through time, space, and gender. This book re-examines the relationship between Britain and colonial slavery in a crucial period in the birth of modern Britain. Drawing on a comprehensive analysis of British slave-owners and mortgagees who received compensation from the state for the end of slavery, and tracing their trajectories in British life, the volume explores the commercial, political, cultural, social, intellectual, physical and imperial legacies of slave-ownership. It transcends conventional divisions in history-writing to provide an integrated account of one powerful way in which Empire came home to Victorian Britain, and to reassess narratives of West Indian 'decline'. It will be of value to scholars not only of British economic and social history, but also of the histories of the Atlantic world, of the Caribbean and of slavery, as well as to those concerned with the evolution of ideas of race and difference and with the relationship between past and present. Africans to Spanish America expands the diaspora framework to include Mexico, Peru, Ecuador, and Cuba, exploring the connections and disjunctures between colonial Latin America and the African diaspora in the Spanish empires. Analysis of the regions of Mexico and the Andes opens up new questions of community formation that incorporated Spanish legal strategies in secular and ecclesiastical institutions as well as articulations of multiple African identities. The volume is arranged around three sub-themes: identity construction in the Americas; the struggle by enslaved and free people to present themselves as civilized, Christian, and resistant to slavery; and issues of cultural exclusion and inclusion. Contributors are Joan Cameron Bristol, Nancy E. van Deusen, Leo Garafalo, Herbert S. Klein, Charles Beatty Medina, Karen Y. Morrison, Rachel Sarah O'Toole, Frank "Trey" Proctor, and Michele B. Reid. After the Fact: Authority and the Historical Document in Late Twentieth-Century Literature examines six historiographic metafiction novels that critically employ archival documents. The writers endeavor ethical and critical projects that reveal how authority is constructed in historical records, comprised of an array of genres that perform ideological work. Interrogates the traditional binary 'slave societies'/'societies with slaves' as a paradigm for understanding the global practice of slaveholding. Charlotte was looking forward to her holiday in the sun. Two months on a remote tropical island with her rich, handsome boyfriend: who could ask for more? She is more than a little surprised, then, when she arrives to find that the island is in fact a vast correction centre - the Training Grounds - presided over by a sworthy and handsome figure known only as the Master. But greater shocks are in store, not least Charlotte's discovery that she is there not as a guest, but as a slave ... The Nexus, so-named because of the operational intersection or Nexus of faith and culture, is an alphabetized manual of cultural artifacts of significance to Christians. In The Nexus, Jon Widener observes how Christianity has lost many battles over the years and how the evangelical community has been fraught with endemic anti-intellectualism. He sees an evangelical insularity taking the form of retreat and retrenchment from the comings and goings of the larger society. Dr. Widener proposes that modern Christian believers correct these deficits by exercising the exhortation of I Pet 3:15 (KJV) to always be prepared to give an answer to every man that asketh you a reason of the hope that is in you. Believers should educate themselves on culturally relevant issues where there are questions of Christian morality. This is the burden and purpose of the book. Accordingly, the standard for inclusion is straight-forward. If the topic is culturally encountered and has moral implications, then it meets the threshold standard for inclusion in the work. Sugar was the single most valuable bulk commodity traded internationally before oil became the world's prime resource. From the sixteenth to the eighteenth century, cane sugar production was pre-eminent in the Atlantic Islands, the Caribbean, and Brazil. Subsequently, cane sugar industries in the Americas were transformed by a fusion of new and old forces of production, as the international sugar economy incorporated production areas in Asia, the Pacific, and Africa. Sugar's global economic importance and its intimate relationship with colonialism offer an important context for probing the nature of colonial societies. This book questions some major assumptions about the nexus between sugar production and colonial societies in the Caribbean and Southeast Asia, especially in the second (post-1800) colonial era. This book examines slavery, an antiquated, ugly, inhumane practice, seemingly abolished in the nineteenth century, yet never eradicated. The legacies of historical slavery have become increasingly subject to public debate, manifested in calls for reparations, the UNESCO Slave Route Project, and in the dismantling of Confederate monuments in the United States. NGOs have researched and publicized the extent of contemporary slavery, which some of the essays in this collection discuss. This area of inquiry intersects with wider debates about the legacies of colonialism and structural racism—which could be seen in the Rhodes Must Fall campaigns in South Africa and Oxford. NGOs estimate that there are between 21 and 46 million slaves worldwide today. The essays gathered here critically examine the historical roots of slavery, the issue of reparations, and deconstruct contemporary human trafficking. Most humans are significantly richer than their ancestors. Humanity gained nearly all of its wealth in the last two centuries. How did this come to pass? How did the world become rich? Mark Koyama and Jared Rubin dive into the many theories of why modern economic growth happened when and where it did. They discuss recently advanced theories rooted in geography, politics, culture, demography, and colonialism. Pieces of each of these theories help explain key events on the path to modern riches. Why did the Industrial Revolution begin in 18th-century Britain? Why did some European countries, the US, and Japan catch up in the 19th century? Why did it take until the late 20th and 21st centuries for other countries? Why have some still not caught up? Koyama and Rubin show that the past can provide a guide for how countries can escape poverty. There are certain prerequisites that all successful economies seem to have. But there is also no panacea. A society's past and its institutions and culture play a key role in shaping how it may – or may not – develop. Short fiction was an immensely innovative art in the medieval Arab world and speaks to the urbanization of the Arab domain after Islam. It reflects the bustling life of Muslim Arabs and Islamized Persians and the sure stamp of an urbanity that had settled very staunchly after big conquests. Reading these texts today illuminates the wide spectrum of early Arab life and the influences and innovations that flourished so vibrantly in medieval Arab society. Classical Arabic Stories selects from an impressive corpus, including excerpts from seven seminal works: Ibn Tufail's novel, Hayy ibn Yaqzan; Kalila wa Dimna by Ibn al-Muqaffa; The Misers by al-Jahiz; The Brethren of Purity's The Protest of Animals Against Man; Al-Maqamat (The Assemblies) by al-Hamadhani and al-Hariri; Epistle of Forgiveness by al-Ma'arri; and the epic romance, Sayf Bin Dhi Yazan. Organized thematically, the volume begins with pre-Islamic tales, stories of rulers and other notables, and thrilling narratives of danger and warfare. It follows with tales of love, religion, comedy, and the strange and the supernatural. Representative works are interpreted in light of the two great political movements of the nineteenth century: the abolition of slavery and the women's rights movement. By reexamining Emerson, Poe, Melville, Douglass, Walt Whitman, Chopin, and Faulkner and others, Rowe assesses the degree to which major writers' attitudes toward race, class, and gender contribute to specific political reforms in nineteenth and twentieth-century American culture. In The Afterlife of Reproductive Slavery Alys Eve Weinbaum investigates the continuing resonances of Atlantic slavery in the cultures and politics of human reproduction that characterize contemporary biocapitalism. As a form of racial capitalism that relies on the commodification of the human reproductive body, biocapitalism is dependent upon what Weinbaum calls the slave episteme—the racial logic that drove four centuries of slave breeding in the Americas and Caribbean. Weinbaum outlines how the slave episteme shapes the practice of reproduction today, especially through use of biotechnology and surrogacy. Engaging with a broad set of texts, from Toni Morrison's Beloved and Octavia Butler's dystopian speculative fiction to black Marxism, histories of slavery, and legal cases involving surrogacy, Weinbaum shows how black feminist contributions from the 1970s, 1980s, and 1990s constitute a powerful philosophy of history—one that provides the means through which to understand how reproductive slavery haunts the present. In the fifth

volume of Emma's story Henry, Emma's masterful lover, suddenly re-enters her life. But Emma's Mistress, Ursula, and Sabhu the gigantic Haitian slave-trainer are supervising Emma so closely that her delightfully subservient dalliances with Henry are soon discovered. Determined to enforce her dominance over her pretty little slave, Ursula sends Emma to a rehabilitation centre. Under the stern tutelage of the Headmistress and the Major, Emma learns complete obedience to her Mistress's strange desires. This book provides a critical and a conceptual analysis of radical Islamist rhetoric drawn from temporally and contextually varied Islamist extremist groups, challenging the popular understanding of Islamist extremism as a product of a 'clash-of-civilizations'. Arguing that the essence of Islamist extremism can only be accurately understood by drawing a distinction between the radical Islamist explanations and justifications of violence, the author posits that despite the radical Islamist contextualization of violence within Islamic religious tenets, there is nothing conceptually or distinctly Islamic about Islamist extremism. She engages in a critical analysis of the nature of reason in radical Islamist rhetoric, asserting that the radical Islamist explanations of violence are conceptually reasoned in terms of existential Hegelian struggles for recognition (as fundamentally struggles against oppression), and the radical Islamist justifications of violence are conceptually reasoned in terms of moral consequentialism. With a detailed analysis of Islamist extremist discourse spanning a wide range of contexts, this book has a broad relevance for scholars and students working in the field of Islamic studies, religious violence, philosophy and political theory. While it often seems that the various disciplinary fiefdoms within liberal arts education seem to dismiss the importance of any of the competing disciplines, the editors of this volume of 26 essays assert that the use of core texts and core curricula can lead to a unity of the disciplines in the thinking of the liberal arts student. Organized along the lines of five particular claims, the papers collectively assert that the act of reading unifies the liberal arts, that particular texts unify or propose a unity of knowledge of the arts, that the imagining of the good city is an apt metaphor for envisioning a meeting place of thinking and creating, that ethics must be applied as a mode of inquiry to all kinds of texts and knowledge, and that the union of the good (phronesis) and the truth (sophia) into wisdom should be the aim of liberal arts education. Annotation copyrighted by Book News, Inc., Portland, OR Stranded, alone and penniless in the heart of the Amazon Basin, Emily thinks things can't get any worse. It is only when she meets the captain of the Amazon Maiden that her dark journey truly begins. Originally published as a collection in 2006, the essays in this volume discuss the reasons for the end of the slave trade and the institution of slavery itself. They examine the rise of the abolitionist movement in different countries and how the move towards abolition was swifter in some areas than others. Attention is also paid to the economic consequences of abolition, popular attitudes to abolition and the role of the Church. The volume also has an introduction by the editor commenting on the contribution each essay makes. This classic novel by a renowned sociologist and civil-rights leader examines issues of race, class, and gender in early 20th-century America. Its romance between young lovers becomes increasingly urgent and dramatic in the shadow of the "silver fleece" — the cotton industry, which forms a nexus of Northern finance and Southern politics.
